Dear Community Members:

The Site Improvement Project is moving forward with construction scheduled to begin on Monday, October 30 at 8:00 AM. Work is estimated to take 2-3 weeks, with some odds and ends not being completed until the spring (plantings, etc.). In preparation, you may see some preconstruction activities including deliveries, markings, etc. during the week before the start date.

Normal library activities and services are intended to proceed as planned during this time period but if needed, we will make adjustments. In some cases, we may have advance notice, in others, changes may need to happen on the fly. Please note that all construction schedules are subject to change based on a variety of factors. We will let the community know of any changes via our website, social media and/or postings in the building.

I am always happy to answer questions or address any concerns you may have. Please reach out to me directly so that I can give you up-to-date and accurate information. While we certainly don't anticipate any issues during construction, I am here to assist should there be anything. I am available by phone, email, or in-person and welcome the opportunity to speak with you.

The Board and I sincerely thank our neighbors and patrons for their continued patience and understanding. Just like many of you, we are eager to complete this project and return to normal activities.

Sincerely,

Jamie Papandrea, Director
